

APPLICATION

ThermoTube is a single insulated tube ideally suited to transport hot or cold liquids or gases. It was specifically developed for steam supply and condensate return lines, and is also used as an unheated sample line.

ThermoTube is pre-insulated with non-hygroscopic glass fiber, complete with a heat reflective foil wrap and a weather-resistant outer jacket. ThermoTube can be manufactured with a variety of tube materials, wall thicknesses and outer jackets.

ThermoTube is supplied in long length coils and can be quickly and easily installed in existing cable trays, angles, channels, struts and I-beams. ThermoTube, along with its associated termination seal kits, provide a lower installed cost compared to field installed and insulated tubing.

CONSTRUCTION

- 1 Tube, per customer specifications
- 2 Non-hygroscopic glass fiber Insulation
- 3 Heat reflective wrap (not shown)
- 4 Polymer outer jacket *

PRODUCT FEATURES

- · Fast delivery and installation
- Long coils minimize waste
- · Superior weather-proofing

ACCESSORIES

See Form TSP0037U for basic accessories

HOW TO SPECIFY

SL-4B135-ATP Bundle Type Jacket Tube O.D. -**Tube Wall Thickness Option Type 5** SL = Single Tube Tube Material 2 = 1/4" 30 = .030" ATP^₄ Number 32 = .032" (Copper Only) A = 316 SS Welded 3 = 3/8" TPU of 35 = .035" B = #122 Copper 4 = 1/2" Tubes 40 = .040" (Plastic Only) C = PFA Teflon² 6 = 6mm 1 47 = .047" (Plastic Only) D = Monel³ 8 = 8mm 49 = .049" E = Titanium 62 = .062" (Plastic Only) 10 = 10mm F = 316 SS Seamless 65 = .065" 12 = 12 mm 83 = .083" (SS Only) G = 304 SS Welded 20 = 20 mm 1 = 1mm H = 304 SS Seamless 1.5 = 1.5mm J = Alloy C276 K = Alloy 825 L = Alloy 20 Notes . . . $M = FEP Teflon^2$ 1. Contact factory for availability of 1" O.D. coils. N = Nylon2. Teflon is a trademark of E. I. duPont de Nemours Co., Inc. Not recommended P = Polyethylene for high temperature service. 3. Monel is a trademark of Inco Alloys International, Inc. X = Special

- 4. Black ATP is standard: other jacket materials are available, including black TPU.
- Maximum process exposure temperature 400°F (204°C), keeping the outer jacket at 140°F (60°C).
- * Standard product is rated up to 500°F (260°C), outer jacket will exceed the 140°F (60°C).
- Product rated for process temperatures up to 1100°F (593°C) are available contact factory.
